#### How Regular Signature Spas Platinum Use is Good for You

**Relieves stress:** Scientists now know that being in a portable spa can put the autonomic nervous system in a state of balance which helps subjects enter a calmer, more relaxed state.

**Relieves muscle pain and tightness:** Pressurized water from jets act as pinpoint massagers, helping to loosen tight muscles.

**Detoxifies the body:** The warm water temperature of a spa — as high as 104 degrees Fahrenheit — causes sweating, which flushes toxins from the body.

**Increases blood flow:** Warm water immersions cause blood vessels to dilate, increasing blood flow which can facilitate healing.

**Improves joint movements:** Water makes the body buoyant, allowing free movement of joints without weight or pressure
